

SafePath Children's Advocacy Center releases new resources for professionals in the field of child abuse:

Building a SafePath: From Confusion to Clarity has been an evolution over many years of working with child victims of sexual abuse and their parents and loved ones. At SafePath, we believe that a parent's support is vital to a child's recovery from trauma of sexual abuse. More than anything, children need the love and support of those who have the greatest influence and impact in their lives. It is with this in mind that *Building a SafePath* was written.

Building a SafePath: From Confusion to Clarity Facilitator's Guide was written as a resource for facilitators of psycho-educational groups for parents and caregivers of children who have been sexually abused. It is a skill-based manual empowering group facilitators to guide parents to be the best support possible as their children heal. It contains information on a wide range of topics which are pertinent to adults caring for a child who has experienced sexual abuse and includes step-by-step instructions to enable groups to be conducted with just a little preparation. The publication of this facilitator's manual aims to enable mental health professionals and group facilitators to encourage, support and educate parents and caregivers by preparing and equipping them with expert knowledge. It is geared towards those who want to make a difference in the lives of children who have been sexually abused.

The companion book *Building a SafePath: From Confusion to Clarity Caregiver Handbook* works hand-in-hand with the Facilitator's Guide and provides parents and caregivers the knowledge and confidence that they can be active participants in their child's recovery from the trauma of sexual abuse.

Books can be purchased from the following book sellers:
