

Acute Conditional Confirmations

Acute Conditional Confirmations are confirmation determinations that are needed in a timeframe that does not allow for full assessment; however, it is evident the youth is likely a victim of CSEC.

Examples:

- Youth being recovered by local, state or federal law enforcement partners and needs an acute conditional confirmation for placement.
- Youth is recovered with other youth who have previously been confirmed as CSEC victims.
- Youth interacting with known traffickers.
- Active sexually exploitative advertisements involving the youth were discovered by law enforcement.
